

Pedagogic case and specific course in which designed tasks and units are used

Name of university:

Contact person:

Pedagogic case:	•
Description (including temporal scheme for design, development and implementation)	•
Aim	•
Mathematical concepts	•
Addressed practice	•
Place in specific course Course name Place of units	•
Learners profile orientation, year, age, prior knowledge, other such as math anxiety, special needs, ..	•
Organisation of specific course study credits/hours, location, group size	•
Expected learning outcomes	•
Envisioned use of digital technology	•
Planning of tasks	•
Names of persons involved	•
Course:	
Learning objectives	•

Learning contents	•
teaching /learning activities	•
Media	•
Evaluation	•
Instructor role	•
Student roles	•
